

Hello everyone,

We are pleased to report a good progress being made at Blue Cross Baradine whilst the construction team remains hard at work to ensure your new residence will be of optimum standard.

The anticipated date of opening is early September. We will be organizing an afternoon for residents and clients to come and visit the facility before it officially opens. A date will be confirmed to you so that you can keep your calendars free!

Recent developments at Baradine include, the completion of residents' rooms and lounge areas in readiness for the fit out.

You will see from our photos below, garden beds are being prepared for the arrival of roses, maples and camellias from Livingstone Gardens. A stylish pavilion has also been built where our residents can enjoy BBQs, leisure time and special occasions.

At Baradine, residents will be able to step in to the luxuriously appointed hairdressing salon where their needs will be surpassed. Residents can also enjoy a multi-purpose room which encompasses a large screen for movies, an area where resident/relatives meetings can be held, together with a built-in bar for happy hour.

For our current Chinese residents, we are preparing a special area where they would be able to enjoy Chinese television channels. In addition, a garden patch has been prepared so that they can enjoy growing their own vegetables.

Keep a look out for news about the upcoming Open Days to be held with tours of the residence before our residents start moving in.

Until our next update, best wishes from Blue Cross Community and Residential Services.
